

OneSolar Product Offering

Prysmian offers a complete portfolio of cables and solutions to enable the production and supply of solar energy. Our wide range of products includes aluminum and copper PV, fiber, medium voltage and substation control cables that all support our efforts towards a sustainable future.

OneSolar is Prysmian's all-in-one solution designed to accelerate the transition to clean energy by integrating high-performance cables, accessories, and smart technologies. It reflects Prysmian's broader commitment to sustainability and innovation, delivering reliable, eco-friendly products. By anticipating market needs and leveraging deep R&D expertise, OneSolar empowers customers to build smarter, more resilient solar infrastructure.

Why Choose OneSolar?

All-in-One Offering: A comprehensive range of products and services tailored to meet your project needs.

Advanced Technology: Innovative, high-efficiency solutions designed to maximize performance.

Eco-friendly Products: We are committed to sustainable and clean energy practices.

5-year Warranty: Assurance and reliability for your investments.

Exclusive Program Benefits

Purchase medium-voltage cables and enjoy a 36-month warranty. Additionally, you will receive a 2% rebate on other cable categories, including CU PV, AL PV, and Fiber. Don't forget about another 2% rebate on Network Components and PRY-CAM when you spend a minimum of \$250,000 in each category. Take advantage of these offers and boost your purchasing power today!

Innovation Leader

Prysmian is dedicated to driving innovation to meet the evolving needs of our customers and communities. By rapidly grasping their business drivers, we ensure our solutions align perfectly with market demands. Our team of over 1,000 R&D experts, distributed across 26 cutting-edge research and development centers, is always alert to foresee emerging trends in our industries. This commitment to innovation not only reinforces our position as a market leader but also ensures we consistently deliver products that are faster, more groundbreaking, and environmentally sustainable.

Commitment to Sustainability

Prysmian is dedicated to leading the energy transition and digital transformation. Prysmian aims to offer customers sustainable products and innovative solutions that promote sustainability. Prysmian's commitment to sustainability goes beyond financial objectives; it focuses on creating value throughout the entire supply chain, positively impacting communities, and nurturing a culture of sustainability.
