

## Prysmian to Debut OneSolar – A Comprehensive Solution for Solar Industry Cabling Needs – During Cleanpower 2025

**Highland Heights, Ky., May 19, 2025** – **Prysmian**, a world leader in the energy transition and digital transformation, will introduce OneSolar, an all-in-one offering of its innovative solutions for the solar industry, during Cleanpower 2025 in Phoenix, Arizona from May 19-22, 2025.

With OneSolar, renewable energy customers will enjoy seamless service and top-quality products all in one place. The OneSolar solution includes:

- **SunGen®-E Copper and SunGen®AL Photovoltaic Wire** – The first of its kind in the market, SunGen features a carbon black core underneath a colorable outer layer, proven to perform better against deformation while providing longer service life and lower the overall cost of the system and emissions.
- **Empowr® Link CL and CL Advantage Underground Distribution Cable** - CL™ Advantage changes the game by integrating compact conductor stranding, flat-strap copper concentric neutrals, and a durable cross-linked polyethylene (XLPE) thermoset jacket. This cutting-edge combination enhances protection and results in a lightweight, compact cable that offers a lower total cost solution with remarkable benefits.
- **Optical Fiber and Cables** – Made Right Here in North America, Prysmian [optical fiber and cabling solutions](#) meet all BEAD program-specific Build America, Buy America Act provisions.
- **PRY-CAM and Accessories** - A breakthrough technology that allows online, accurate, and reliable measurements of key parameters, diagnosis, and defect localization from remote. A great add on to medium and low voltage cabling.

“There continues to be a global shift towards renewable and sustainably sourced energy, and Prysmian is committed to offering solutions that help our renewable energy partners deliver projects that benefit the future of our world,” said Maura Nespoli, Vice President of Sales for Renewable Energy and Sustainable Solutions, Power Distribution for Prysmian North America. “OneSolar carries this commitment forward by offering innovative, high-efficiency solutions from a single source committed to sustainable and clean energy practices.

To launch the OneSolar offering, Prysmian is offering a 5-year warranty from shipment on all cabling and accessories. Additionally, a 2% rebate is available on large orders of Network Components and PRY-CAM products.

In addition to Prysmian’s display and exhibition on the showroom floor during Cleanpower, OneSolar Program Director, Allison Coleman, will serve as keynote speaker for a Spark Tank Presentation – *Prysmian Announces OneSolar, A Comprehensive Solution for Solar Industry Cabling Needs*, on Wednesday, May 21.

Visitors attending Cleanpower 2025 can learn more at Booth #1356.
