

OVERVIEW

Prysmian is proud to offer some of the industry's finest cable preparation tools. The tools can be used to remove cable jackets on concentric neutral cable, flat strap neutrals, PILC cables and AIRGUARD™ cables.

Jacket Stripper

PG Jacket Stripper

| Part Number Inches (mm) | Cable OD Range | |
|----------------------------|----------------|----------|
| | Inches | mm |
| PG2-MV/C079L079 (2020) | 0.80 – 1.40 | 20 – 36 |
| PG3-MV/C039L070 (1018) | 1.00 – 2.00 | 25 – 51 |
| PG3-MV/C110L130 (2833) | 1.00 – 2.00 | 25 – 51 |
| PG4-MV/C110L130 (2833) | 1.85 – 3.00 | 47 – 76 |
| PG5-MV/C138L138 (3535) | 2.55 – 3.70 | 65 – 94 |
| PG6-MV/C138L138 (3535) | 3.14 – 4.90 | 80 – 124 |

Note: The last number within the part number indicates the blade depth. The first two digits indicate the depth in millimeters of cut for the circumferential cut and the last two digits indicate the depth in millimeters of cut for the longitudinal cut.

Example: The PG4-MV/C110L130 contains four circumferential blades (MTC4 type) with a depth of 0.110 inches (2.8 mm) and one longitudinal blade (MTL4 type) with a depth of 0.13 inches (3.3 mm).

Replacement Blades

| Part Number Inches (mm) | Quantity |
|----------------------------|----------------------|
| MTC3-039 (1) | Four blades per tool |
| MTL3-070 (1.8) | One blade per tool |
| MTC3-110 (2.8) | Four blades per tool |
| MTL3-130 (3.3) | One blade per tool |
| MTC4-138 (2.8) | Four blades per tool |
| MTL4-130 (3.3) | One blade per tool |
| MTC5-138 (3.5) | Four blades per tool |
| MTL5-138 (3.5) | One blade per tool |
| MTC6-138 (3.5) | Four blades per tool |
| MTL6-138 (3.5) | One blade per tool |

Other Tools

| Part Number | Description |
|-------------|---|
| EVP | Lead Lifting Tool |
| EV 150-240 | Sheath Spreader |
| DSP | Semicon Lifting Tool |
| MF3-60 | Jacket, Semicon & Insulation Removal Tool |

Lead Lifting Tool
