

Lifeline® Project Reference List

With the widest portfolio of fire resistive cable systems in North America, Prysmian's Lifeline® technology offers ease of installation, the best value in the electrical industry, and most importantly, UL certified code compliance for life safety applications.

Lifeline® fire resistive cables are equipped with a variety of unique cable technologies, such as ceramifiable silicone insulation, and specially fabricated thermal tapes and braids designed to allow vital communication and power systems to remain operational during extreme fire conditions.

Lifeline® MC and Lifeline® MC LSZH systems utilize self-contained raceways, and in addition to Lifeline® RHW-2 cable-in-conduit, provide maximum flexibility and cost savings for an array of fire-resistive applications.

CURRENT PRODUCT OFFERING:

RHW-2 Power Cable

Lifeline® RHW-2 Two-Hour Fire Resistive Cables for use in Life Safety and Emergency circuits in EMT and XW Breathsaver®.

Metal Clad (MC) Power Cable

Lifeline® MC and Lifeline® MC LSZH Two-Hour Fire Resistive Cables for use in Life Safety and Emergency circuits as self-contained raceways.

QFCI Fiber Cable

Optical Riser Rated cable for indoor and outdoor use in vital communication and emergency systems that need to be operational during fire.
